	Aaron Patchen				2019-03-01 01:22:48.013 AM	
	@Dax Taran @Nuke Goldstein reason for the burn?					
	Aaron Patchen				2019-03-01 01:23:20.013 AM	
	I think it could be announcement worthy.					
	Nuke Goldstein				2019-03-01 01:28:19.017 AM	
	If we say nothing, someone will notice and make a fuss that we're lying and stealing. We can control this instead of waiting for this to happen.					
	Kristen Ryan				2019-03-01 01:29:40.017 AM	
	Reason is we had to refund unaccredited participants of our ICO					
	Kristen Ryan				2019-03-01 01:29:52.017 AM	
	eh just say unqualified participants					
	Nuke Goldstein				2019-03-01 01:31:46.017 AM	
	fixed					
	Ashley Harrell				2019-03-01 01:38:49.017 AM	
	And unsold tokens					
	Ashley Harrell				2019-03-01 01:42:10.017 AM	
	Total CEL in Supply: 695,663,643.3779 Tokens to Burn: 4,336,356.6221 Refunds to Unaccredited Contributors 1,211,633.2912 Unsold 3,124,723.3309					
	Kristen Ryan				2019-03-01 01:48:18.017 AM	
	idk if we need to get that specific....					
	Dax Taran				2019-03-01 01:48:29.017 AM	
	why not though					
	Dax Taran				2019-03-01 01:48:32.017 AM	
	no harm in being specific					
	Nuke Goldstein				2019-03-01 01:49:15.017 AM	
	that's going to open a bag of manure					
	Dax Taran				2019-03-01 01:49:37.017 AM	
	maybe the refunds yeah...					
	Nuke Goldstein				2019-03-01 01:49:58.020 AM	
	@Kristen Ryan I'm sure Alex has some opinions on how to phrase					
	Kristen Ryan				2019-03-01 01:50:15.020 AM	
	let's hold off					
	Kristen Ryan				2019-03-01 01:50:18.020 AM	
	until i'm more awake					
	Kristen Ryan				2019-03-01 01:50:23.020 AM	
	and we have more opinions					
	Aaron Patchen				2019-03-01 01:50:39.020 AM	
	Yeah that will be a bad idea I'd say. The public believes that the ICO was fully funded and all tokens purchased. If they find out now that there were unsold they will be upset					

Kristen Ryan	2019-03-01 01:50:48.020 AM
yup	
Aaron Patchen	2019-03-01 01:52:12.023 AM
We also had Zachary (or do we refer to him as he who shall not be named?) kept posting stuff all over that we actually sold more than we should have and raised more than we said we did of the 50M.

Kristen Ryan	2019-03-01 02:21:26.030 PM
@Nuke Goldstein how are lambos in the snow?	
Dax Taran	2019-03-01 02:22:22.030 PM
Actually really great, you can crash them so fast that you don't even feel any pain!	
Sam	2019-03-01 02:53:33.040 PM
Hi guys—I'm working with Ehud and Petar at 10 on our updated model for liquidations for loans so please see below: My update: The \$4.5 mm loan (thanks Aliza for your awesome work) is very close to closing. It is 50% LTV backed by 50% ADA, 30% BTC, 10% ETH, and 10% BCH. We are hoping it closes next week. The \$10mm dash deal is progressing nicely as well. We have found a few partners who can do the masternode staking for us and we have a call (Alex and Nuke and Samantha) on Monday to go through logistics of the trade. The next version of the app flow is also moving along—this will include payment automation in app and margin calls. No specific asks, I will reach out if I need. Thx and happy Friday	
Kristen Ryan	2019-03-01 02:54:46.040 PM
Can you give us more info on the mixed collateral loan? I always thought this was not an option	
Sam	2019-03-01 02:55:10.040 PM
It's a special case—it's a big loan	
Liz Rabban	2019-03-01 03:57:30.040 PM
how much Dash incoming	
Sam	2019-03-01 03:59:10.043 PM
we are in negotiations, but it is moving along. They first threw out \$20mm in dash collateral and a \$10mm loan. The Dash will be staked on a masternode that earns ~8%. It's not like deployment for BTC or ETH. We have partners who can stake it for us an earn the stake reward	
Dax Taran	2019-03-01 03:59:59.043 PM
We can stake it ourselves right? Or does spinning up masternodes require physical hardware? I guess it does.. hmm	
Sam	2019-03-01 04:02:31.043 PM
Yeah. We have guys that will spin them on our behalf	
Liz Rabban	2019-03-01 04:22:40.047 PM
we have a couple of good staking partners it is a nice idea	
Aaron Patchen	2019-03-01 04:40:27.047 PM

Dax just linked me to this We should make an announcement on this. It's great to have this. This has by far been the number 1 question on Telegram. Don't know if I'm making this bigger than it is but I think it's big news. Can we get a mass email about this or something?

Ashley Harrell	2019-03-01 04:40:46.047 PM
@Kristen Ryan is coordinating this effort	
Aaron Patchen	2019-03-01 04:40:58.047 PM

Dax Taran	2019-03-01 04:50:48.050 PM
I have shared it privately with a few long term supporters on Telegram and they've given good feedback	
Ashley Harrell	2019-03-01 04:52:15.050 PM
kristen as we spoke about it yesterday, can we send one email out to our general community and a diff one to the ICO participants? it would be awesome btw to have a date for this town hall, maybe mid-March? that we could include in the email so we can invite people to share their thoughts	
Kristen Ryan	2019-03-01 04:52:29.050 PM
yes and yes	
Kristen Ryan	2019-03-01 04:52:32.050 PM

(not really bc i'm not doing this on a fri night lol)	
Nuke Goldstein	2019-03-01 04:53:05.050 PM
it's 230 or so Dash masternodes. So, we need help. We'll be ready next week. Keep in mind it will be 3 weeks or so until we can start earning. ADA - staking is not live yet. could be in late March or April. we're talking with our partners to check staking. I'm sure markets will offer good rates too once it starts.	
Ashley Harrell	2019-03-01 04:53:16.050 PM
oh hell naw	
Kristen Ryan	2019-03-01 04:54:24.050 PM

Dax Taran	2019-03-01 06:09:25.053 PM
@Kristen Ryan @Nuke Goldstein The CelPay cashback incentive system... Will that work when sending CEL to existing users as well, or only new ones?	
Nuke Goldstein	2019-03-01 06:12:41.053 PM
that's token utility not marketing. so anyone.	
Dax Taran	2019-03-01 06:13:00.053 PM
any system in place to stop people from CelPaying each other back and forth?
